Web Symposium Description

This international "Web Symposium" on innovations in urology will be directed towards urologists from around the world who have an interest in presenting and / or discussing some of the newest innovative techniques or therapies that they are utilizing at their institution. Following each presentation there will be open forum among the participants to discuss the new techniques.

Educational Objectives

At the completion of this symposium, participants will be able to:

- Understand some of the new techniques being developed around the world in urologic surgery
- Replicate some of the new techniques demonstrated during the course at their own institution
- Become familiar with emerging technologies in urologic surgery

Continuing Education

The Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Case Western Reserve University School of Medicine designates this education activity for a maximum of **AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Acknowledgment

Educational grants from corporate sponsors in support of this course are gratefully acknowledged. Acceptance of funding in support of this program does not constitute endorsement of any product or manufacturer. A full listing of supporters will be provided in the course syllabus.

Policy Disclosure The policy of the Case Western Reserve University School of Medicine CME Program requires that the Activity Director, planning committee members and all activity faculty (that is, anyone in a position to control the content of the education activity) disclose to the activity participants all relevant financial relationships with commercial interests. Disclosure will be made to activity participants prior to the commencement of the activity. The Case Western Reserve University School of Medicine also requires that faculty make clinical recommendations based on the best available scientific evidence and that faculty identify any discussion of "off-label" or investigational use of pharmaceutical products or medical devices.

The minimum system requirements to attend this live web symposium include:

- **PC-based attendees:** Windows® 2000, XP Home, XP Pro, 2003 Server, Vista with speakers.
- **Macintosh®-based:** Mac OS® X 10.4 (Tiger®) OR NEWER with speakers
- **Internet Explorer 6.0** or greater, Safari 3.0 or greater, or Firefox 2.0 or greater Adobe Flash Player 8.0 or greater
- **For optimal viewing/participating experience**, participants should have at minimum 1 Mb/s download speed; 384 Kb/s upload speed* For an ideal Connect experience, we recommend participants join in on a DSL connection or higher and be hard-wired to the internet (i.e. not wireless)

* Attempting to view or participate in the meeting with a configuration which is lower than minimum requirements will result in dropped audio, video or both.
